

Market leading paving brand Geo-Fix® now available from Instarmac

INSTARMAC®

From 1st June, Instarmac will be the nominated supplier of market leading Geo-Fix® All Weather and Original Paving Jointing Compounds.

Geo-Fix® is a ready mixed jointing compound that is simply applied to joints with minimal effort. Available in 2 versions, Original in 20kg buckets in Buff and Grey and All Weather in 14kg buckets in Natural Stone, Mid Grey and Slate Grey. Instarmac are a British manufacturer with 45 years' experience manufacturing and servicing the construction, maintenance and landscape markets.

John Andrews Director of Geo-Fix® stated; "We are delighted to be working with Instarmac to distribute the Geo-Fix® range, the team are committed to providing exceptional products and service and I am confident together we will produce even greater opportunities for our customers."

Zoe Rees Head of Sales from Instarmac says; "We are thrilled to be supplying the Geo-Fix® range of jointing compounds. In addition, are extremely committed to ensure a seamless transition and service for all customers both existing and new. "

Geo-Fix®

All Geo-Fix® products will all be available from 1st June through an authorised network of approved distributors, merchants and stockists. Contact 01827 908510 or email info@geo-fix.org.uk for more information.
